

For Pro Shops

Unishippers is a partner of UPS and focuses on helping small and medium-sized businesses. We save retailers 15-30% on their inbound shipping costs from vendors that prepay and add the freight on the product invoice.

We have a simple 4-step process or you can [click here to watch a 60-second video](#) that explains it:

- Unishippers will provide an apples-to-apples comparison by reviewing your current product invoices.
- Next, we'll determine which vendors are overcharging you.
- Unishippers will then contact all qualifying vendors and provide them with your new UPS account number and routing instructions or you can notify your vendors.
- Finally, Unishippers will set up inbound tracking reports so you can have visibility over your orders.

For Manufacturers, Dealers and Parts Departments

Unishippers' aggressive ground and express discounts have helped manufacturers and dealers save tens of thousands thousands on outbound shipping of products, paperwork and parts

- Unishippers will provide an apples-to-apples comparison by reviewing pricing from your current carriers.
- Unishippers will seamlessly integrate with your current shipping platforms to ensure a smooth transition.
